DATE: October 11, 2016
TO: Planning Commission
FROM: Planning Director is
SUBJECT: Zoning Ordinance Amendment Article 4 – Package Sales & Drive-Up/Through Services

SUGGESTED ACTION

Recommend approval of the amendments to Article 4 as discussed.

DISCUSSION

Package Sales

- Package sales of distilled spirits must be approved by a referendum.
- If a majority of those casting ballots in favor of issuing licenses, package sales become lawful within 15 days after the certification of the results by the election superintendent.
- In order to conduct the referendum a petition signed by at least 35% of the registered voters must be submitted to and verified by the election superintendent.
- Planning staff has proposed a zoning classification in anticipation of a future referendum as a result of inquiries received by individuals seeking information on the process for approving package sales of distilled spirits within the city limits.

Drive-Up/Through Services

- In recent years, proposed development of retail and restaurant uses with drive-up/through services has generated significant concern among city residents, land owners and elected officials.
- With the pending completion of the Highway 20 improvement project scheduled for this year, planning staff anticipates an increase in demand for these types of uses along the Highway 20 corridor—particularly at key intersections and planned median crossings.
- Planning staff is working on a request for proposals which will be used to select planning and market analysis consultants to prepare a market study, master plan and overlay for the Highway 20 corridor in the next few months.
- To address the immediate primary concerns over noise and light trespass, planning staff has proposed an update to the restrictions associated with a drive-up/through use.
- The restrictions would apply city-wide if within 250' 500' of a residential use and are designed to mitigate the impacts of sound emanating from a drive through ordering kiosk and service windows as well as light trespass from vehicles circulating the parking area and queuing in the drive-through lane.

The 2000 Zoning Ordinance of the City of Sugar Hill, Georgia

1. The lot shall have road frontage on a major street or Package store state highway. 2. The lot shall have a minimum amount of road frontage of 200 feet on a major street or state highway. The lot shall be at least one acre in size. 3. 4. Distilled liquor shall be sold only in buildings constructed for and devoted to that purpose exclusively. 5. Any building in which distilled liquor is sold shall not be more than one story in height and shall have a minimum of 5,000 square feet of space. The building shall have only one entrance and one 6. exit, both of which shall be located on the front of the building. No doors or windows shall be located on the sides or rear of the building. 7. The front wall of the building shall have a minimum of 150 square feet of plate glass in addition to any glass on entrance or exit doors. Quarry. 1. A quarry for the removal of minerals and other natural materials, together with necessary buildings, machinery and appurtenances thereto. 2. Quarry areas being excavated shall be entirely enclosed within a fence located at least ten (10) feet back from the edge of any excavation and of such constructions and height as to be demonstrably able to exclude children and animals from the quarry area. 3. The operators and owners of the quarry present to the Mayor and Council an acceptable comprehensive plan for the reuse of the property at the cessation of the quarry operations. 4. In the case of an existing quarry, an extension of the quarry operations beyond the areas being quarried or approved for quarrying at the effective date of this Zoning Ordinance of the City of Sugar Hill, Georgia, shall be permitted and shall not be considered a new operation provided that said extension does not extend to within one thousand (1,000) feet of a residential or commercial Zoning District boundary line. Recovered materials processing facility, Activities shall be limited to collection, sorting, 1. recycling station. compacting and shipping.

2. Along the entire road frontage (except for approved access crossings), provide a three-foot high landscaped earthen berm with a maximum slope of 3 to 1 and/or a minimum six-foot high, 100 percent opaque, solid wooden fence or masonry wall. The landscaped berm shall consist of a staggered double row of evergreen and semi-evergreen trees and shrubs; must not contain more than 30% of a single species and shall provide an effective visual screen of at least 20' at maturity. The fence/wall or berm must be located outside of any public right-of-way and interior to any landscaped strip. The finished side of a fence/wall shall face the exterior property lines. The facility shall not be located within 1,000' of any 3. property used for or zoned for single family residential use. 4. Lighting for such facilities shall be placed in such a fashion as to be directed away from any nearby residential areas. 5. Materials collected shall not be visible and shall be deposited in a bin or bunker. All sorting and collection bins shall either be enclosed and have chutes available to the public or be located inside a fully-enclosed building. 6. No outdoor storage of un-containerized materials shall be allowed. Equipment or rental vehicles shall not be parked or 1. stored in the required front yard. The storage area for the vehicles or equipment to be 2. rented shall be screened by an opaque fence at least six (6) feet high. The storage area shall not be located closer than 100 3. feet to any side or rear property lines zoned residential and shall be appropriately landscaped and maintained. Restaurant with drive-up and/or drive-through 1. No drive-through speakers or ordering kiosks within 250 feet of a residence. 2. A noise reduction plan is required prior to receiving a Land Disturbance Permit when closer than 500 feet to a residential area. 3. When adjoining a residential area, the required buffer must consist of at least a staggered double row of evergreen and semi-evergreen trees and shrubs native or adapted to the area. Trees shall be at least 6' tall at time of

Rental, moving trucks and vans.

service

The 2000 Zoning Ordinance of the City of Sugar Hill, Georgia

Article 4 Zoning Districts & Use Provisions

planting. Plantings shall be arranged to provide an effective visual screen of at least 20' in height at maturity.
Buffer must not contain more than 30% of a single species.
4. Opaque screening must be provided to prevent adverse visual impact of headlights and display screen lights if any residential properties are located in proximity such as to be impacted.

1. The junkyard shall not be located closer than three hundred (300) feet to a commercial zoning district boundary line or 1000' to any property used or zoned for residential.

2. The junkyard is completely enclosed with an opaque fence not projecting into the right-of-way of any roadway adjoining said junkyard, not less than eight (8) feet high and in no case less than such height as will effectively screen all storage and other operations from view.

3. The junkyard shall not be located closer than one thousand (1,000) feet to the nearest edge of the right-ofway of any major arterial roadway. Within this subpart "major arterial roadway" is defined as any roadway, street or thoroughfare within the City limits of Sugar Hill, Georgia, having a right-of-way of one hundred (100) feet or greater.

4. Along the entire road frontage (except for approved access crossings), provide a three-foot high landscaped earthen berm with a maximum slope of 3 to 1 and/or a minimum six-foot high, 100 percent opaque, solid wooden fence or masonry wall. The landscaped berm shall consist of a staggered double row of evergreen and semi-evergreen trees and shrubs; must not contain more than 30% of a single species and shall provide an effective visual screen of at least 20° at maturity. The fence/wall or berm must be located outside of any public right-of-way and interior to any landscaped strip. The finished side of a fence/wall shall face the exterior property lines.

Shall contain a minimum of three (3) acres of land and at least one hundred (100) feet of road frontage measured by airline measurement from property line, using the closest property lines of the parcels of land involved. The term "parcel of land" means any quantity of land capable of being described by location and boundary, designated and used or to be used as a unit.

Salvage operation or junk yard.

Shelter, commercial.
