Preventing Water Pollution from Hazardous Wastes

Help protect our streams and lakes by reducing, recycling and disposing of different types of hazardous materials that may be found in your home. Here are a few tips on helping our environment:

- Never dump vehicle fluids down the storm drains which lead directly into your streams.
- Regularly tune your vehicle and fix all leaks.
- Recycle all batteries.
- Use pesticides and herbicides sparingly and only as a last resort.
- Take paints, stains, varnishes and sealers to an approved collection site. Call 1.800.CLEANUP or go to www.cleanup.org for a site near you.

Please Note: Putting anything other than stormwater into the City's stormwater system is a violation of the Illicit Discharge and Illegal Connection Ordinance. There are few exemptions!! The Illicit Discharge and Illegal Connection Ordinance can be found on-line at the City's website: www.cityofsugarhill.com
