

World Changers Here in July

Last month we mentioned the upcoming proposed World Changers Youth Mission Project. After positive negotiation, we are happy to announce that the group will be coming to Sugar Hill (July 24th-30th). The Sugar Hill Housing Authority has agreed to again fund this worthwhile community activity. Local churches will house and feed the workers; supplying lunches to each work site daily. The Gwinnett Braves called to offer their support as part of their public outreach program. Last year we had food, snacks and supplies donated by local businesses, and we again look to them for their support.

With 160 young adults already signed up to come to Sugar Hill - the week will be spent working on resident homes repairing or replacing roofs, building handicap ramps, rebuilding porches, replacing rotted siding and painting homes. We are now accepting applications so if you know of any Sugar Hill residents that need help, please contact Don Kelemen at City Hall @ 770-945-6716, by email, or leave your contact information. Applications are available at City Hall, or will be mailed on request.

Public Service Announcement for Sugar Hill Gas Customers

If you smell gas in your home, you should leave your home immediately. Once you get outside and away from the odor, call the City of Sugar Hill Gas Department. If you don't know the number of your provider call 911.

DO NOT attempt to shut off any appliances, light switches, valves, or open windows - Just leave!

Since natural gas has no odor, we add an odor to natural gas for safety reasons. This odor causes a natural gas leak to smell much like a rotten egg. If you smell anything like this, you should leave your home immediately and call:

- 770-271-2137 - Gas Department 7:00 a.m. until 4:00 p.m.
- 770-945-6716 - City Hall after 4:00 p.m. and on weekends
- If you unable to remember these numbers call 911

Natural gas is a clean, efficient source of energy and is colorless, shapeless and odorless in its pure form. The Sugar Hill Gas system follows all Federal Regulations concerning natural gas and is safe, well maintained and underground.

The City is responsible for maintaining the underground pipes up to the gas meter; anything (piping) beyond the meter is the responsibility of the customer. As these are metal pipes that can be subject to corrosion, make sure that they are properly maintained. If you are doing any yard work that involves digging, you must call the Georgia One Call Center at (770) 623-4344 or 811, three days prior to digging - it's the law. This allows for all utility owned buried pipe and cable to be located. All the digging should be done carefully by hand in the vicinity of the pipe to prevent damage or sparking. This locating service is available free of charge through the Sugar Hill Gas Department.
