

BROADBAND AVAILABILITY

Senate Bill 402, known as the ACE Act (Achieving Connectivity Everywhere), directs local communities to address broadband availability in local comprehensive plans. The local government must make an objective determination of whether it is served by broadband service. Appropriate follow up steps must be identified based on the community's determination of whether it is served by broadband.

The following map identifies broadband service in the City of Sugar Hill:

SHARE YOUR THOUGHTS

As used in this section: “Broadband services” means a wired or wireless terrestrial service that consists of the capability to transmit at a rate of not less than 25 megabits per second in the downstream direction and at least 3 megabits per second in the upstream direction to end users and in combination with such service provides:

- Access to the Internet; or
- Computer processing, information storage, or protocol conversion.

And “Broadband services provider” means any provider of broadband services or a public utility or any other person or entity that builds or owns a broadband network project.

DO YOU FEEL THAT THE CAPACITY FOR BROADBAND SERVICES ARE ADEQUATE IN THE CITY OF SUGAR HILL (SUCH COVERAGE, SPEED AND ACCESS TO SERVICES, ETC)?
