Sugar Hill, circa 2015

- Everyone shares one thing that has changed in Sugar Hill from the video Mike wanted us to watch.

Mayor-council government

- Mike explains that another way of looking at the Weak-Mayor/Strong-Mayor government is the full-time/part-time status. A weak-mayor form is where the mayor is part time, while strong-mayor form is where the mayor is full time. Sugar Hill has a weak mayor form, although Mayor Edwards has veto power and additional powers above what WIKI says a weak-mayor form of government has.
- Paul Radford (city manager) is the one who provides ideas and initiatives of what should happen, while the council is the one who guides his vision along the way.

September Council Agenda

- Mike goes over the work session agenda. He explains what a light and heavy manufacturing is and covers the rezoning of light manufacturing and how no one has complained.
- The Youth Council also goes over the next part of the work session, the Zoning Ordinance Amendment and what they remember from their attendance from last council's work session.

Daniel motions to adjourn, Milen seconds. Vote is unanimous.
