Administrative Hearing for Appeal of Condemnation 4839 East Broad St. – Mayor Edwards explained that this hearing will be to decide on the appeal of the action of condemning the structures located on the property at 4839 East Broad Street. The city will present their case first then the appealing party will present theirs. The Council will then render a decision on whether the buildings should be declared in habitable and torn down or boarded up.

Mauricio Torres, Building Official for the city explained that the city responded to a complaint regarding the condition of buildings A, B and C. He showed pictures of the buildings and the inside. Building A had collapsed, and a rubble of wood and other things were still there in its place. The pictures had captured a vagrant coming out of one of the buildings and a trail through the high vegetation to get to the buildings. There was graffiti on the inside and outside of the building of building B with trash and metal parts all over the floor. It had holes in the ceiling and the truss system is rotted. This building is uninhabitable and a hazard. Children could go inside the building playing and the structure collapse. Building C was in better shape but starting to fail with the roof trusses rotting.

Attorney Harry Camp represented the appealing party DonRob Investments, LP. Mr. Camp noted that there was no evidence presented regarding building C. His clients main concern was the notice. It was a two-page letter dropped out of the blue with no previous complaints on the property. Mr. Camp presented pictures of neighboring properties to the City Clerk for the record. His clients plan is to renovate the property and bring it back to good condition. HE stated that this is a three-acre tract of land. What is being condemned here is not clear. He also wanted to know what specific code section.

Council Member Cohen asked Mr. Camp is the property is boarded up? The letter sent by the Code enforcement states that it should be boarded up. Mr. Camp was not sure. He stated that there are dangerous conditions there and the owner should go out and look at the property.

The City Attorney Frank Hartley stated that the council makes the decision and it should be sent to the appealing party. The Council should address building A, B, and C separately.

Council Member Anderson motioned to deny the appeal for Buildings A and B identified on the presentation this evening with thirty days to provide a plan to the Planning Department to renovate and rehabilitate Building C and also secure building C so that it presents trespassing on the property. The City Attorney questioned time frame on the demolition of Building A and B. Council Member Anderson amended his motion to add that the appealing party has thirty days to file for a demolition permit for Building A and B with the city's Planning Department and upon issuance of a permit for Buildings A and B remove those buildings within thirty days. Council Member Cohen seconded the motion. Approved 3-0.

Public Hearing #3, 2020 Property Tax Millage Rate – City Manager Paul Radford presented a power point comparing the tax rate and revenue for the past thirteen years. It showed the recession years and how the city stayed consistent over those years not changing the millage rate. It also showed a comparison for the county bill and the city's portion of the tax bill. Gwinnett County collects the taxes for the City, and it is all on one bill. Staff is recommending keeping the millage rate at 3.8 mills as it has been for the past sixteen years. The public hearing was opened and Amber Chambers, 809 Whitehead Rd. spoke regarding the tax rate. She requested last week at the Work Session that the Council get with staff and figure out the budget to roll the millage rate back. She sent over some areas of the budget that could be cut to funds the rollback of the tax rate.

Curtis Northrup, 9405 Ponderosa Trail., Gainesville, stated that he is proud that during his tenure as a Council Member the tax rate was not increased. With the growth in population there is an increase in demand for services and on the roads and infrastructure.

There were no other comments, so the hearing was closed. Council Member Anderson stated that the widening of Highway 20 brought growth to the City. New growth stabilizes old growth and allows for maintaining the same rate. He motioned to maintain the millage rate at 3.8 mills. Council Member Hembree seconded. The City Manager stated that they would need to pass the

Resolution setting the millage and to forward such resolution to Gwinnett County. Council Member Anderson amended the motion to include the passage of the Resolution setting the millage rate at 3.8 mills and to forward the Resolution to Gwinnett County. Council Member Hembree's second stands. Approved 3-0.
