***See attached bid proposal form*

END OF ADDENDUM #3 – 21-005

SECTION 004113 – FORM OF PROPOSAL

TO: Mr. Troy Besseche, Owners Representative
City of Sugar Hill

I have received and reviewed bid documents, dated and titled:

**GOLD MINE PARK SITE WORK CONSTRUCTION AND REST ROOM FACILITY,
CITY OF SUGAR HILL**

I have also received Addenda No. _____ and have included their provisions in my bid. I have examined both the documents and the site and submit the following bid.

In submitting this bid, I agree:

- A. To accomplish the work in accordance with the Contract Documents.
- B. To construct, by the deadlines indicated in heading E below, Goldmine Park for a sum of:

ITEM NO. 1: Base Proposal (Not including Allowances)

_____ DOLLARS (\$ _____)

ITEM NO. 2: Allowances (sum total of items listed in heading F below)

_____ DOLLARS (\$ _____)

TOTAL BASE BID* (TOTAL OF ITEM NO. 1 & 2 ABOVE)

_____ DOLLARS (\$ _____)

-* Hereinafter referred to as the **Base Bid**.

- C. To execute a Contract, if awarded, on the basis of this bid and to furnish Performance and Payment Bonds.

- D. To hold my bid open until 60 days after bid date.
- E. To be substantially complete **within 120 days** and to achieve final completion **within a total of 150 days (30 additional)**.

Failure to meet this deadline is grounds to be excluded from future bids by City of Sugar Hill.

- F. **ALLOWANCES:** To provide **as a part of the Base Bid** an allowance for sum total of all work related to the below outlined.

Unsuitable materials shall be defined as:

1. Substances not capable of being compacted to the density specified,
2. Rock material larger than ½ cubic foot in volume,
3. Debris and organic material. Such materials shall be determined by the Owner’s Geotechnical Testing Agency;
4. Materials which are not suitable for use on this project;
5. Unsuitability for sale of materials to third parties is not included in this definition.

Soil material which is too wet to permit the specified compaction but is still suitable to be used in structural capacity (once dried) based on the recommendations of the soils testing agency, shall be spread and permitted to dry in an area to be designated by the Architect. Contractor shall assist drying by discing, harrowing or pulverizing until the soil moisture content is reduced to the specified value. Only excavation of soil which is wet due to a concealed condition, including, but not limited to, underground springs, high water table and leaking pipes, shall be addressed as a potential additive change order. Suitable materials which are wet due to precipitation as determined by the Owner’s Testing Agency shall be dried as specified and reused at no additional cost.

Allowances in Base Bid:

1. Fill and compact with suitable soils acquired on-site to replace unsuitable soils removal 50 cubic yards @ \$ _____ /cy
2. Fill and compact with suitable soils acquired off-site to replace unsuitable soils removed 50 cubic yards @ \$ _____ /cy
