CONSENT AGENDA OLD BUSINESS

Supplemental Contract – Natural Gas Connections – Assistant City Manager Besseche explained this contract provides a program to help the city mitigate the industry trends for natural gas customers of small to mid-sized providers replacing aging appliances with electric ones. The city would receive full-service expert assistance to its customers. It would include appliance rebates and on-bill financing services that the city is already providing. The additional cost for the Natural Gas Connection program (NGC) is just over \$1 per meter per month. The cost will not be added to the customers but would be part of the city's operating cost. The council had questions regarding the cost (\$144,000.00 per year), marketing potential, and current attrition cost. Council Member Anderson motioned to table this item to address the questions by Council. Mayor Pro Tem Cohen seconded the motion. Approved 5-0.

Applicant Request to Table, RZ-22-007, Rezoning RS-100 Medium Density Single-family Residential to BG General Business, 5422 Sugar Ridge Drive – This item was tabled until the May Council Meeting.

The resolution to re-certify includes the five principles required by the program, serve others, not ourselves, use resources with efficiency and economy, treat all people fairly, use the power of our position for the well being of our constituents, create an environment of honesty, openness and integrity.
