Planning staff: Kaipo Awana and Claire Weatherly

Welcome and Introductions

Open Houses Update

Outreach Efforts Update

Up next!

Update summary:

- Kaipo shared the upcoming Lanier cluster student events as a part of public input and as an educational opportunity with the students. Kaipo mentioned that we will be looking to bring in volunteers from the steering committee for the event.
- Kaipo explained an updated timeline for presenting the first draft and the public hearing for the draft plan. Planning staff will aim to present a first draft of the plan at the October City Council meeting pending completion of the draft. The second public hearing will be held in mid-November.

Comments and input summary:

- Attendees discussed their excitement for the Lanier cluster event and showed a willingness to volunteer as able.
- One attendee mentioned possibly having a special called meeting if it would be too rushed to have the first draft finished by the October Council meeting. Staff agreed with this idea; it will depend on the timing of the draft completion. One attendee mentioned a preference to having

the draft presentation at City Council since more community members are aware of council meetings as opposed to a special called meeting.

- Planning staff will keep the steering committee up to date as the schedule is finalized.
