

City of Sugar Hill
Planning Staff Report
RZ 24-004

DATE: October 2, 2024
TO: Planning Commission
FROM: Planning Department
SUBJECT: Rezone to RS-100 CBD
1036 and 1040 Whitehead Road and to expand the boundaries of the CBD to include the subject properties.; R7-306-009 and R7-306-111

ISSUE The City of Sugar Hill has received an application from Whitehead Road Investments, LLC to rezone the subject properties from AF, RS-100, and RS-150 to RS-100 CBD (within the Central Business District) for future single-family residences.

RECOMMENDED ACTION

Recommend approval of request to rezone the 4.61 acres described as 1036 and 1040 Whitehead Road to RS-100 CBD with the following conditions:

1. The development shall substantially conform to the site plan (Exhibits 1-2) submitted with the application, particularly regarding its general features, placement, and alignments. However, alterations necessary to accommodate requirements from the design review process are permitted without additional Mayor and City Council approval, provided they align with the spirit and context of the approval as determined by the Planning Department.
2. At least three natural gas appliances shall be installed within each residential unit prior to a certificate of occupancy.

AUGUST 19, 2024, PLANNING COMMISSION PUBLIC HEARING AND RECOMMENDATION

The Planning Commission held a scheduled public hearing on August 19, 2024. The public hearing was opened. Applicant representative Nick Thompson spoke on behalf of this request. Amber Chambers, Andrew Shultz, James January, and Philipe Bayard spoke in opposition regarding the lack of application materials.

Planning Commission Member Mark Daniels made a motion to recommend tabling the case until a site plan and other application materials were received. Planning Commission Member Brian Shebs made the second. Motion to recommend tabling approved 5-0.

SEPTEMBER 2, 2024 CITY COUNCIL WORK SESSION

At the September 2, 2024, meeting, the City Council authorized legal counsel to begin drafting an MOU with the Sugar Hill DDA for the city-owned parcels represented on this site plan. The rezonings for the city-owned parcels will be considered separately at a later date.

SEPTEMBER 9, 2024 CITY COUNCIL MEETING

At the September 9, 2024, City Council meeting, Council unanimously voted to table the review and public hearing to the October 14, 2024, City Council meeting and remand the application back to the Planning Commission at their September 16, 2024, meeting at the applicant's request and staff's recommendation.

SEPTEMBER 16, 2024, PLANNING COMMISSION PUBLIC HEARING AND RECOMMENDATION

The Planning Commission held a scheduled public hearing on September 16, 2024. The public hearing was opened. Applicant representative Nick Thompson spoke on behalf of this request. Josh Mendoza, J. Gregory Mendoza, Clifton Prewitt, Ifenyi Imachukwu, Jack Wolfe, and Faye Sisson spoke in support of this requesting referring to support of housing in proximity to downtown and support for the project plan and general design. Tom Lebonc, Rick January, Andrew Schultz, Paul Grimes, and Amber Chambers spoke in opposition of this request citing concerns of application, density, and traffic.

Planning Commission Member Brian Shebs made a motion to recommend denial of the case. Planning Commission Member Rosemary Walsh made the second. Motion to recommend denial approved 3-0-2. (Phil Olsen and Jason Jones abstained)

UPDATES

Following the September 16 Planning Commission meeting, where the need for additional information to support a decision was expressed, the applicant has responded comprehensively to address all concerns. The application has been augmented with a Letter of Intent, legal description, plat, utility availability letter, updated site plans, additional site plan details, representative elevations, and conceptual plans for review and consideration.

DISCUSSION

- Parcel 7-306-009 is presently zoned Medium Density Single Family Residential (RS-100) and Agricultural – Forest (AF) within the Town Center Overlay and is currently vacant. Parcel R7-306-111 is presently zoned Low Density Single Family Residential (RS-150) within the Town Center Overlay with an existing residence on the property. Both parcels have been requested to be rezoned to Medium Density Single-Family Residential within the Central Business District (RS-100 CBD).
- The Central Business District is an overlay district located in the downtown core of the City of Sugar Hill. Land use designations and design requirements are intended to encourage a variety of transportation options and allow a mix of uses in closer proximity to each other.
- The subject properties are adjacent to the Central Business District to the north and east.
- Within the Central Business District, single family residential developments are limited to townhomes, row homes, or zero-lot line building types. This enables enhanced cohesion between residential and nonresidential developments within the downtown core.
- The two subject parcels account for 4.61 out of 15.3 acres for the whole Hedgewood Homes project. The largest parcel of the project, 7-306-017 with 6.53 acres, is under the same ownership. The remainder of the properties in the project are owned by the City of Sugar Hill. By rezoning to RS-100 CBD, the two parcels would be in accordance with nearby parcels under the same owner. While the proposed project spans across multiple properties; this rezoning only pertains to the specified parcels, and other necessary rezoning applications will be submitted in the future.
- The project site plan and elevations would require design review board approval.
- The site plan includes approximately 180 residences across 15.3 acres. The proposed project includes a mixture of housing types as well as space for recreation and commercial activities. The cottage style development with smaller footprint homes will provide housing stock not currently offered in Sugar Hill. Different housing types may provide an opportunity for folks with different housing needs an opportunity to plant their roots in our community.

- The site plan and proximity to downtown offer future residents the opportunity to utilize different modes of transportation. Multiple restaurants, the splash pad, concerts at the Bowl, and more amenities are located within a 10-minute walk of the project. The Sugar Hill Greenway is also a short walk down W Broad Street connecting residents to neighborhoods and recreation opportunities across our community.
- The proposed project offers an additional recreation and greenspace opportunity in our downtown core centering around the Champion Tree and would include the Love Lock public art display. There would be additional opportunities to incorporate public art into the landscape of the park.
- The site plan includes 3 commercial spaces intended for restaurants. These spaces include outdoor dining areas abutting the park.
- The recreation and commercial amenities proposed would offer the Sugar Hill community new opportunities to gather with neighbors. Accessible by the greenway and within walking distance of hundreds of residences, this space would be a community wide asset.
- While offering smaller lot sizes, the common areas and amenities dispersed throughout the project provide residents the opportunity to recreate and spend time outside close to home.
- The subject property presently abuts the central business district to the north and east. Parcel number 7-306-017, to the northeast of the subject property, has the same property owner and is part of the same development and is over half of the acreage of the proposed project. Rezoning parcels R7-306-009 and R7-306-111 to RS-100 CBD would bring the subject property into cohesion with the nearby parcels within the central business district.

BACKGROUND

Applicant/Owner: Whitehead Road Investments, LLC

Existing Zoning: AF/RS-100/RS-150

Request(s): Rezone to RS-100 CBD

Purpose: Future single-family development

Property Size: ± 4.61 acres

Location: 1036 and 1040 Whitehead Road
Tax parcel: R7-306-009 and R7-306-111

Public Notice: Letters to adjoining owners via USPS regular mail on 9/13/24
Sign updated on 9/11/24
Ad in legal section of Gwinnett Daily Post on 9/15/24

Public Comments: See August 19, 2024, Planning Commission public hearing and September 16, 2024, Planning Commission public hearing. Staff received one email in support of the rezoning.

FINDINGS OF FACT

Surrounding Land Use and Zoning

| Direction | Existing Land Use | Existing Zoning |
|-----------|-------------------|-----------------|
|-----------|-------------------|-----------------|

| | | |
|-------|---|---------------|
| North | Warehouse | LM |
| South | Existing single-family residences | RS-150 |
| East | Existing single-family residence/Vacant residence | RS-100/BG |
| West | Existing single-family residence | RS-100/RS-150 |

City of Sugar Hill: Medium Density Single Family Residential in the Central Business District (RS-100 CBD), General Business (BG), Low Density Single Family Residential (RS-150), LM (Light Manufacturing)

ZONING ANALYSIS

1. Will the rezoning requested permit a use that is suitable in view of the use and development of adjacent and nearby property?

Yes, the proposed rezoning fits seamlessly into the existing character of the surrounding area. Located in a well-established residential zone near Sugar Hill’s downtown core, the site is in proximity to multifamily developments, commercial properties, and recreational areas. These uses support a vibrant urban fabric, making the proposed rezoning to RS-100 CBD suitable and desirable. The rezoning will provide a smooth transition between single-family detached homes along Whitehead Road and the mixed-use developments within the Central Business District, further reinforcing Sugar Hill's goal of creating a cohesive, interconnected community.

2. Will the rezoning requested adversely affect the existing use or usability of adjacent or nearby properties?

No, the rezoning aligns with adjacent land uses and promotes the ongoing development of a walkable, dynamic downtown area. The proposed development will enhance the pedestrian environment and support mixed-use activity, which benefits nearby properties by fostering a more vibrant and accessible downtown core.

3. Does the property for which the rezoning is requested have a reasonable economic use as currently zoned?

Yes, the property does have a reasonable economic use under its current zoning. However, the proposed rezoning to RS-100 CBD aligns more closely with the vision outlined in the ENVISION100 Comprehensive Plan, which emphasizes a diverse range of single-family housing types, opportunities to age in place, and pedestrian-friendly design. This rezoning will better support the policy priorities of the city while promoting an economically sustainable development.

4. Will the rezoning requested create an overcrowding condition with respect to the existing streets, transportation facilities, or schools?

No, the proposed rezoning and subsequent development are not expected to lead to overcrowding of schools. The subject site is located within the Lanier cluster (Sugar Hill Elementary), and coordination with the Gwinnett County School System will ensure that any potential impact on schools is appropriately managed. Additionally, the extension of Bailey Avenue through to Whitehead Road, as outlined in the site plan, will enhance transportation connectivity, reducing congestion and improving pedestrian access. Coordination with the

City of Sugar Hill will ensure that access points and traffic flow are designed to minimize any potential adverse impacts on transportation infrastructure.

5. Does the rezoning requested conform to the Sugar Hill Land Use Plan?

Yes, the proposed rezoning is fully consistent with the Sugar Hill Land Use Plan. The property is located within an area designated for higher-density uses, including commercial, recreational, and residential developments. Its proximity to the downtown core and potential connectivity to the Sugar Hill Greenway further support a variety of transportation and recreational options, aligning with the city's vision for a dynamic, mixed-use area. The Envision100 Comprehensive Plan designates this area as "Town Center," which encourages development that blends residential, commercial, and public spaces to create a vibrant community.

The Town Center Character Area envisions:

"a vibrant activity center with a mix of uses including retail, service commercial, professional office, medium to high density residential, civic, and institutional uses. Community greenspaces in this area include a mix of active, programmed areas, as well as spaces that preserve opportunities for passive recreation and environmental conservation. Neighborhood gathering spaces are interconnected and easily walkable. Architectural design, landscape, and streetscape blend to create a sense of place that is both aesthetically attractive and functional."

6. Are there other existing or changing conditions affecting the use and development of the property which would give support to an approval or disapproval of the rezoning request?

Yes, several conditions support the approval of this rezoning request. The Envision100 Comprehensive Plan identifies key needs and opportunities related to greenspace, which align with the design and development characteristics of the proposed project. Prioritizing greenspace and investing in pedestrian-friendly amenities like outdoor gathering areas will significantly enhance the site's functionality and contribute to a more connected community. The following excerpts highlight key components of the project that align with relevant priorities:

Greenspace:

Needs

- Prioritize greenspace through strategic land acquisition.
- Evaluate opportunities for conservation.
- Invest in passive recreation amenities, such as paved and unpaved trails, as well as other flexible outdoor gathering areas.
- Review policies to encourage more ecologically effective landscaping practices.

Opportunities

- Complete the Greenway Trail throughout the community.
- Develop a strategy to activate existing greenspace holdings.

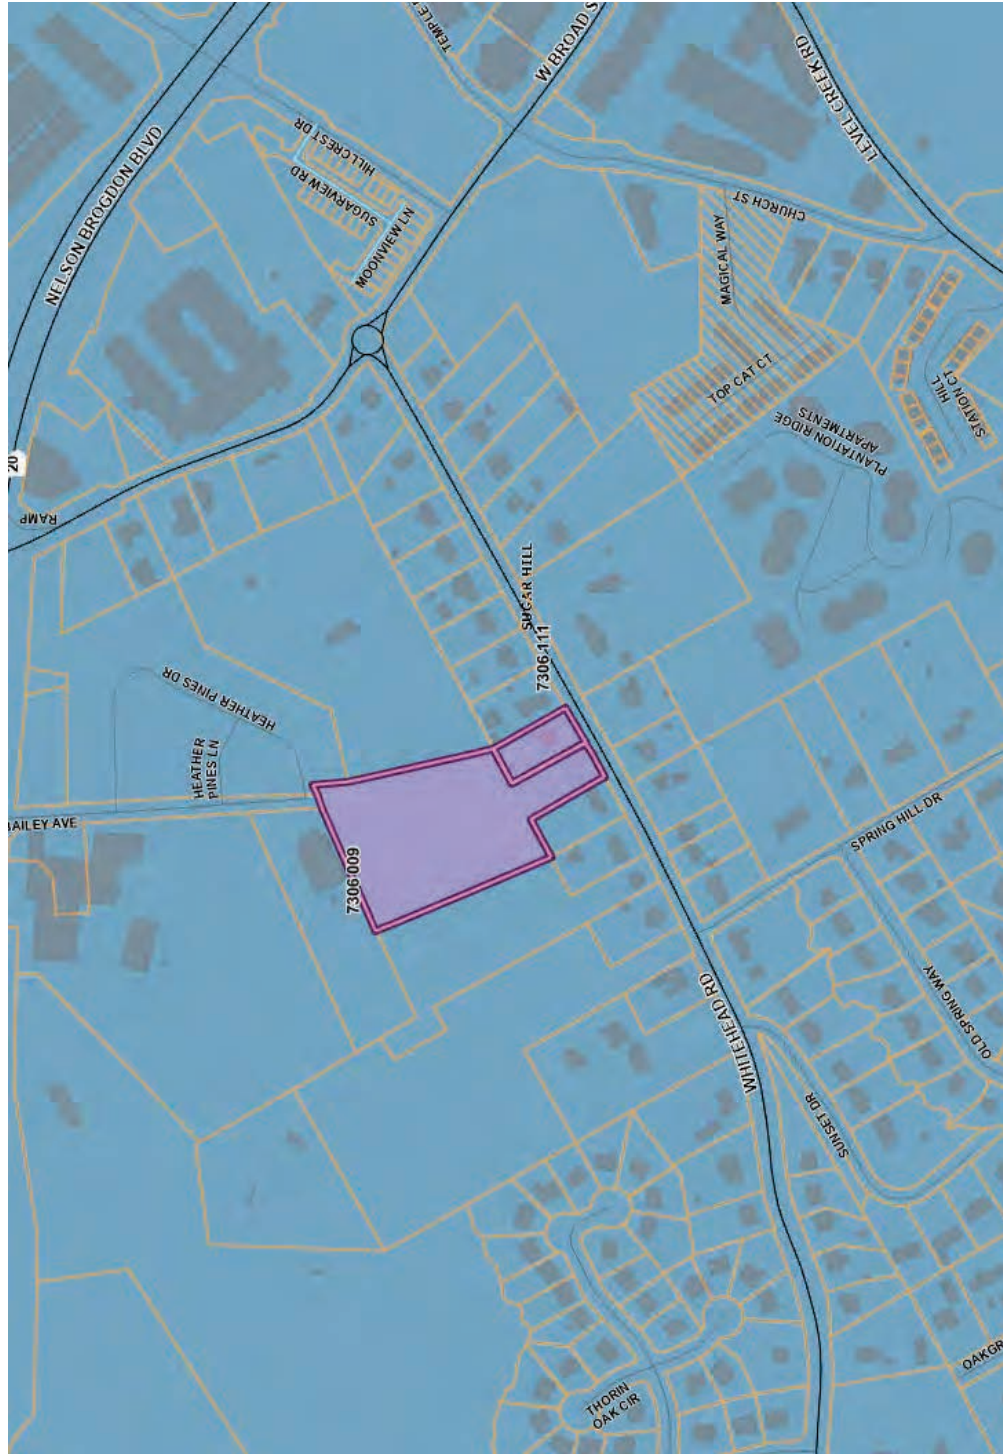

- Consider upgrading amenities at existing parks to enhance access and user experience.
- Facilitate flexible programming for gathering, community building, and events.

The Town Center Character Area specifically recommends the following:

- Support businesses and activities that will attract and engage citizens of all ages.
- Incorporate a variety of active and passive greenspaces such as urban plazas, neighborhood parks, and pocket parks as a part of new development.
- Continue to improve pedestrian and bike connectivity between the town center and the rest of the city.
- Design controls are designed to ensure aesthetic quality for new construction.
- Revitalize aging structures and vacant properties through redevelopment and infill strategies.
- Ensure development patterns create a transition in scope and scale between the highest densities in the town center and surrounding suburban areas.
- Maximize development potential with a mix of uses to create critical mass within a 10-minute walk.
- The town center should include new developments that enhance the vibrant nature of the core, including new dining, shopping, and living options.

The proposed rezoning adheres to these guidelines, making it a well-supported and strategic move to enhance the vitality of Sugar Hill's downtown core.

675 Seminole Ave Suite 301
Atlanta, GA 30307**

September 30, 2024

**LETTER OF INTENT
RZ-24-004**

Whitehead Road Investments, LLC, submits this letter of intent to support the rezoning application for 1036 and 1040 Whitehead Road. These parcels total approximately 4.61 acres along Whitehead Road. 1036 Whitehead Road is presently zoned Medium Density Single-Family Residential (RS-100) and Agricultural-Forest (AF). 1040 Whitehead Road is presently zoned Low Density Single-Family Residential (RS-150). The applicant requests rezoning to Medium Density Single-Family Residential and expanding the boundary of the Central Business District overlay (RS-100 CBD) for a mixed-use development including single family homes, community greenspace, and restaurant/retail spaces.

The subject parcels, 7-306-009 and 7-306-111, are part of a 15.3 acre proposed project to bring a mixture of single-family housing types to downtown Sugar Hill. The proposed plan would provide the Sugar Hill community with housing options not currently available in close proximity to downtown amenities. The project is proposed to have 12 dwelling units an acre, the maximum density for single-family residential in the central business district.

The proposed development will take place through a partnership with the City of Sugar Hill to provide current and future residents with housing products not offered within the existing housing stock. With a variety of housing types, residents with different housing needs will have the opportunity to be part of the Sugar Hill community.

The proposed project will not only provide new opportunities for housing, but also includes commercial and recreational spaces for the whole Sugar Hill community to utilize.

The project will be accessible from two major thoroughfares in addition to Whitehead Road. The project includes the extension of Bailey Avenue to Whitehead Road connecting residents directly to Highway 20. Additionally, residents can enter and exit directly onto West Broad Street.

This project is an appropriate use within Sugar Hill's downtown core. The proposed design creates a transition of uses from multi-family developments to single-family detached residences along Whitehead Road.

There are six housing types outlined on the site plan with the following information:

Unit Type A: the heated square footage (SF) ranges from 1,565-1,965 SF and the building-height ranges from 32.5'-43' (2 & 3 story)

Unit Type B: the SF is 2,395 and the building height is 32.5' (2-story)

Unit Type C: the SF is 2,983 SF and the building height is 43' (3 story)

Unit Type D: 1,767-1,824 SF and the building height ranges from 32.5'-43' (2 & 3 story)

Unit Type E: 896-1,056 SF and the building height ranges from 32.5'-43' (2 & 3 story)

Unit Type F: 1,235 SF and the building height is 43' (3-story)

Unit Type G: Custom-designed Unit

The proposed project is an assemblage of parcels owned by Whitehead Road Investments, LLC, and the City of Sugar Hill. The subject parcels (7-306-009 and 7-306-111), in addition to parcel 7-306-017, are owned by Whitehead Road Investments, LLC. Parcels 7-306-015, 7-306-016, 7-306-018, 7-306-019, 7-306-020, and 7-306-021 are owned by the City of Sugar Hill. Parcels 7-306-017, 7-306-018, 7-306-019, 7-306-020, and 7-306-021 are within the current Central Business District boundary lines.

The project would require future public hearings. Rezoning and expansion of the Central Business District Overlay to include parcels 7-306-016 and 7-306-015 along Whitehead Road would be required. The proposed site plan and elevations would require design review board approval for the CBD.

The proposed development is compatible with the surrounding land uses and the vision outlined by the city's comprehensive plan. The following analysis outlines the impact of the proposed development:

- a. Whether a proposed rezoning will permit a use that is suitable in view of the use and development of adjacent and nearby property:
 - a. The proposed use is suitable in view of the zoning and development of adjacent and nearby properties. Directly adjacent properties are zoned medium-density single family residential (RS-100), agricultural-forest (AF), low density single family residential (RS-150), and general business (BG). The subject parcels currently border the Central Business District (CBD) to the east and northeast.
- b. Whether a proposed rezoning will adversely affect the existing use or usability of adjacent or nearby property:
 - a. Directly adjacent properties are zoned medium density single family residential (RS-100), agricultural-forest (AF), low density single family residential (RS-150), and general business (BG). Surrounding uses include existing residential homes and a nearby manufacturing warehouse facility. A multi-family senior living facility exists directly across West Broad Street with townhome and apartment projects nearby. The proposed use is consistent with adjacent uses and provides high quality housing options in a variety of configurations that are unique but compatible to the area.
- c. Whether the property to be affected by a proposed rezoning has a reasonable economic use as currently zoned:

a. Current zoning of the subject parcels (R7-306-009 & R7-306-111) is RS-100: medium density single family residential, AF: agricultural-forest, and RS-150: low density single family residential and provides for a reasonable economic use as currently zoned. The success of the downtown area encourages new projects to be developed with more activity, ensuring they remain financially sustainable while providing community members new opportunities to locate in the City of Sugar Hill.

d. Whether the proposed rezoning will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools:

a. We do not believe the proposed rezoning will result in a use which will or could cause excessive or burdensome use of existing streets, transportation facilities, utilities, or schools. Instead, it will promote a walkable area optimal to support the Sugar Hill downtown core.

e. Whether the proposed rezoning is in conformity with the policy and intent of the Land Use Plan; and

a. The proposed portion of the development under consideration consists of residential units proposed to have 12 units per acre, the density maximum for single family residential within the central business district overlay, and is a part of a larger mixed-use development. The development aligns and furthers with the future land use map (FLUM) Town Center character area. The characteristics included in the project are consistent with the intent of the character area, thereby making it compatible with the comprehensive plan's goals, objectives, purpose, and intent for both the proposed and existing future land use map designations.

f. Whether there are other existing or changing conditions affecting the land use and development of the property which give supporting grounds for either approval or disapproval of the proposed rezoning:

a. The City's comprehensive plan identifies a walkable district as a key priority which aligns directly with the goals of this project. The project is located in an already vibrant downtown area, and the city's commitment to implementing the comprehensive plan represents a significant changing condition that supports the rezoning request. By fostering walkability and a thriving downtown, the proposed development will enhance connectivity, promote pedestrian activity, and further strengthen the downtown's existing character, making the rezoning an essential step toward realizing the city's long-term vision for the area. Therefore, this changing condition provides strong grounds for approval of the proposed rezoning.

The applicant respectfully requests your approval of the rezoning and expansion of the Central Business District Overlay.

Exhibit A-Legal Description

TRACT 1

All that tract or parcel of land lying and being in Land Lot 306, 7th District, Gwinnett County, Georgia, containing 4.124 acres as shown on a plat of survey for Larry Bailey by W. T. Dunahoo & Associates, Registered Land Surveyor, dated August 5, 1985, recorded in Plat Book 33, page 219A, Gwinnett County Plat Records, which plat is hereby referred to, incorporated herein and made a part of this description and being more particularly described as follows:

BEGINNING at an iron pin on the northwestern right-of-way of Whitehead Road said point being 1,148.46 feet southwesterly from the intersection of the right-of-way of Whitehead Road and the centerline of Broad Street as measured along the northwestern right-of-way of Whitehead where the property herein described joins the property now or formerly owned by Drummond; thence proceeding North 32 degrees 10 minutes 36 seconds a distance of 206.77 feet to an iron pin; thence North 50 degrees 14 minutes 16 seconds East a distance of 99.13 feet to an iron pin; thence North 15 degrees 23 minutes 27 seconds West a distance of 373.08 feet to an iron pin; thence North 06 degrees 03 minutes 20 seconds West a distance 89.22 feet to an iron pin; thence South 64 degrees 05 minutes 57 seconds West a distance of 398.51 feet to an auto axle; thence proceeding South 25 degrees 24 minutes 16 seconds East a distance of 472.91 feet to an iron pin; thence North 59 degrees 46 minutes 01 second East a distance of 105.64 feet to an iron pin; thence South 32 degrees 10 minutes 09 seconds East a distance of 207.69 feet to an iron pin on the northwestern right-of-way of Whitehead Road; thence proceeding North 59 degrees 14 minutes 26 seconds East a distance of 100.23 feet to an iron pin, the place or point of beginning.

AND TOGETHER WITH:

TRACT 2

All that tract or parcel of land lying and being in Land Lot 306 of the 7th District of Gwinnett County, Georgia, known and designated as Lot 63 of the J. C. Orr Subdivision as shown on plat of subdivision prepared by S. C. Moon, Surveyor, dated September, 1940, recorded in Plat Book 8, page 53, Gwinnett County, Georgia Records, and being more particularly described according to a plat of survey made by W. T. Dunahoo and Associates, Inc., dated September 12, 1980, as follows:

BEGINNING at an iron pin on the northwesterly side of Whitehead Road (based on a 30-foot right-of-way), 360 feet northwesterly as measured along the northwesterly side of Whitehead Road from the intersection formed by the northwesterly side of Whitehead Road with the center line of Spring Hill Drive; thence North 30 degrees 02 minutes West, 218 feet to an iron pin found; thence North 62 degrees 20 minutes East, 99 feet to an iron pin found; thence South 30 degrees 19 minutes East, 214.6 feet to an iron pin found on the northwesterly side of Whitehead Road; thence South 60 degrees 30 minutes West along the northwesterly side of Whitehead Road, 100 feet to the point of beginning.

Date: 9/26/2024

Applicant: _____

Case No.: _____

Email: _____

Development Name: _____

Location: 1036 & 1040 Whitehead Road.

DISTRICT: 7

LANDLOT: 306

PARCEL: 009,111

WATER AVAILABILITY:

The available utility records show that the subject development is currently in the vicinity of a 8 inch water main located on the northern right-of-way of Whitehead Rd.

Demands imposed by the proposed development may require upsizing or extensions of existing water mains in order to meet Gwinnett County Standards and fire flow demands. Any cost associated with such required improvements will be the responsibility of the development and will not be provided by this department. Current Gwinnett County Standards require a minimum of 12” pipe size for commercial developments and a minimum of 8” pipe size for residential developments, including connections to existing mains. This department makes no guarantees as to the minimum pressures or volumes available at a specific point within its system. It is the responsibility of the developer’s engineer to confirm pressure and volumes are available for the development.

SANITARY SEWER AVAILABILITY:

The available utility records show that the subject development is currently in the vicinity of a 8 inch sanitary sewer main located on the southern right-of-way of Whitehead Rd.

For parcel R7306-111. And an 8 inch sewer main located along subject parcel R7306-009.

Proposed Development Utility Letter

Sewer Availability continued

The subject development is located within the Level Creek Service area. This does not guarantee there is sewer capacity to serve this development. A Sewer Capacity Certification must be obtained from Gwinnett County to confirm the existing system can serve the development.

Demands imposed by the proposed development may require upsizing and/or extensions of existing sewer mains, and/or upsizing of an existing pump station, and/or installation of a new pump station. Any cost associated with such required improvements will be the responsibility of the development and will not be provided by this department. The developer shall provide easements for future sewer connection to all locations designated by Gwinnett County during plan review.

Water, Sewer, and Stormwater Requirements

Extensions of the water and/or sanitary sewer systems within the subject development must conform to this department's policies, Gwinnett County's ordinances, and the Water Main and Sanitary Sewer Design and Construction Standards and Specifications, dated April 5th, 2016. Subsequent to design, construction, inspection, and final acceptance of the required utilities, service would then become available under the applicable utility permit rate schedules.

Stormwater facilities must comply with the current Gwinnett County codes and ordinances.

Private Road Developments

Any development with private roads must comply with the Standard Policy Requirement for the Installation of Water and Sanitary Sewer Mains within Private Developments. This policy stipulates minimum easement requirements and location of public mains and appurtenances, among other requirements.

Master Water Meter

Master water meters are only allowed under certain conditions to be approved by Gwinnett County. If there are multiple owners within one property, master meters will not be allowed. Individual water meters must be placed off of county-maintained water mains.

NOTE: As-built information for this department is dependent upon outside entities to provide record drawings for the utilities. Therefore, this department does not guarantee the accuracy of the information provided.

Respectfully,
